To Whom It May Concern:

I would like to take this opportunity to recommend Dannon Lucia as an addition to your team! I am grateful to have worked with Dannon at Universal Studios in the Creative department for over 2 years. I began working with Dannon as a coordinator and soon after, she was promoted to Associate Producer.

After meeting Dannon and working with her for a few weeks, I discovered that she more than fit the part of the open Associate Producer position (and was competently filling the shoes) on our project. I quickly recommended her to move into this position and was not alone in my commendation.

Dannon has absolutely been a joy and breath of fresh air during our time together on project. We were able to clean up quite a challenge and get it into a state that made ourselves and our leaders very proud. With accomplished outcome comes hard work and dedication. There are not many that exceed Dannon in these qualities. She dedicated much time and effort into running a smart and efficient show. She is quick on her feet, transparent when necessary and has amazing presentation skills that have led the team to the confident place they are today.

Dannon is a great listener and has an abundant recount of detail. She is a jack of many trades and is always willing and quick to learn new skills. Dannon is coachable in so many ways. She has an amazing talent to understand and mold her work flow and output to match her leaders' or audience's understanding.

As a Designer, you find favorite people to work with-people you really hope to work beside again in the future. Quick and efficient communication and response rather than reaction makes working with Dannon a part of that VIP list for me. She will be a remarkable and valuable asset to any project or task that she is a part of. Please feel free to contact me for further questions about character and experience.

Sincerely,
