

To the individual, group or organization seeking to collaborate with or considering welcoming Dannon Lucia into your fold,

First let me congratulate you on your taste in unique individuals, for Dannon is a rare breed. She is an extraordinary blend of talent, flexibility and “Can Do” attitude, with equal focus on professionalism and working as team to achieve any task or creative challenge.

My experience working with Dannon at Walt Disney Creative Entertainment was nothing but positive. Every moment of every day, Dannon was immersed in simultaneous, fast-moving, live theater & TV productions. She was supporting multiple teams, each filled with a wide range of personalities, as well as often working closely with celebrity talent. Her background in live theater and postproduction were equally matched by the playful approach she brings to every project. Not only did Dannon always deliver, but she also made the journey equally rewarding. Regardless of a project’s scope, complexity, or profile, Dannon excels in multitasking, even when working on multiple projects.

Besides having the reputation for always getting the job done, she has an equal reputation for being a fun and positive light. I’ve never seen her in a less than a chipper mood or bring any negativity into the stormy times that can develop around the often-changing climate of live theater and Television production.

Simply put, Dannon is an experienced, hard working, good egg with a refreshing spirit. Her talent and personality are assured to help any project shine brighter.
